

Racing at Roosevelt Field

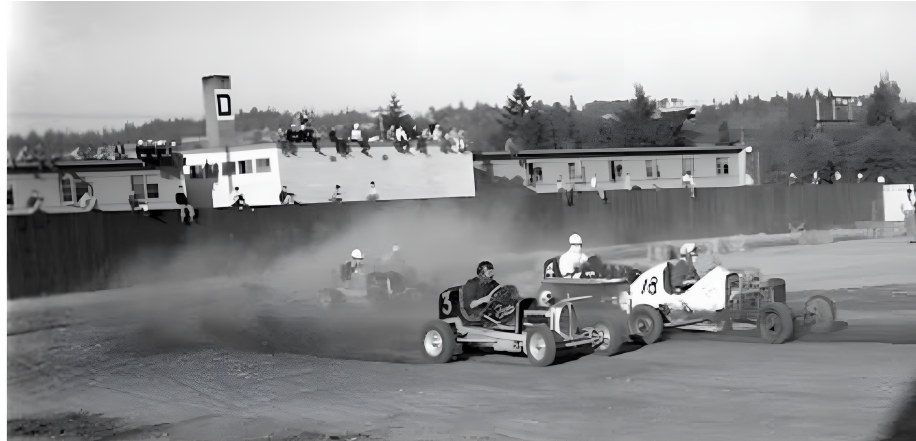

I grew up in Kitsap County and had no idea that Automobile Racing was happening in so many different areas. For instance, I attended Olympic College way back when and had no clue that Automobile Racing once was

conducted in the very spot I parked my car. In fact, I once participated in an Auto Cross on that very lot. I knew that there once was a Ball Field on that location however I never knew they raced cars there to.

If you have never visited the good folks at the Kitsap Historical Society or their amazing Website, you are missing out on an amazing collection of local History. Along with the ability to Search their large collection of Photos and information.

So far I have been unable to unearth little more than some early photos of racing at that location, however I will continue to search and hopefully come up with more

details. So far I have only found a Racing Poster advertising Midget Racing in 1950. Anyone with any details please feel free to contact me at cruisinkitsap@gmail.com.
